

A 3x3 grid of dots. The dots are arranged in three rows and three columns. The bottom-left dot is missing, leaving 8 dots in total.

A 3x3 grid of dots. The top row has two dots in the middle and right positions. The middle row has two dots in the middle and right positions. The bottom row has two dots in the middle and right positions, with the left position being empty.

A 3x3 grid of dots. The top row has two dots, the middle row has two dots, and the bottom row has three dots. The dot in the top-right position is missing.

A 3x3 grid of dots. The top row has two dots, the middle row has two dots, and the bottom row has three dots. The dot in the top-right position is missing.

A 3x10 grid of dots representing a sparse matrix. The dots are arranged in a pattern that suggests a banded structure with some off-diagonal elements.

Figure 1 displays two sets of four dot patterns each, arranged in a 2x4 grid. The left set contains four patterns of 5 dots each, and the right set contains four patterns of 6 dots each. A vertical line separates the two sets. The patterns are arranged in two rows of two.
